

How to install Billing Cashier and Client.

1. Download the installer from e2Links website: <http://www.e2links.com.my>
2. First install the Billing at Cashier. Just simply click "Next" until "Finish", After install completed click the icon below to open your cashier.

A screenshot of the "Cybercafe Setting" application window. The window has a light blue background and contains several sections:

- Server Config:** Includes fields for "Administrator Account" (value: 0), "Cybercafe ID" (empty), "Main Center Address" (value: 103.246.217.55), and "Port" (value: 8080). A "Check" button is located to the right of the port field.
- Netbar Info:** Includes a "Name" field with the value "TEMP".
- Bar Setting:** Includes a "Billing ID" field (value: 1) and a "MAC Address" field (value: 002185C4AB3E).
- Emergency Mode Setting:** Contains three radio button options: "Enable Prohibited", "Enable With Management Passwrod", and "Enable Without Management Passwrod". The "Enable Without Management Passwrod" option is selected.
- Management Password:** A password field with a masked password represented by a series of black dots.

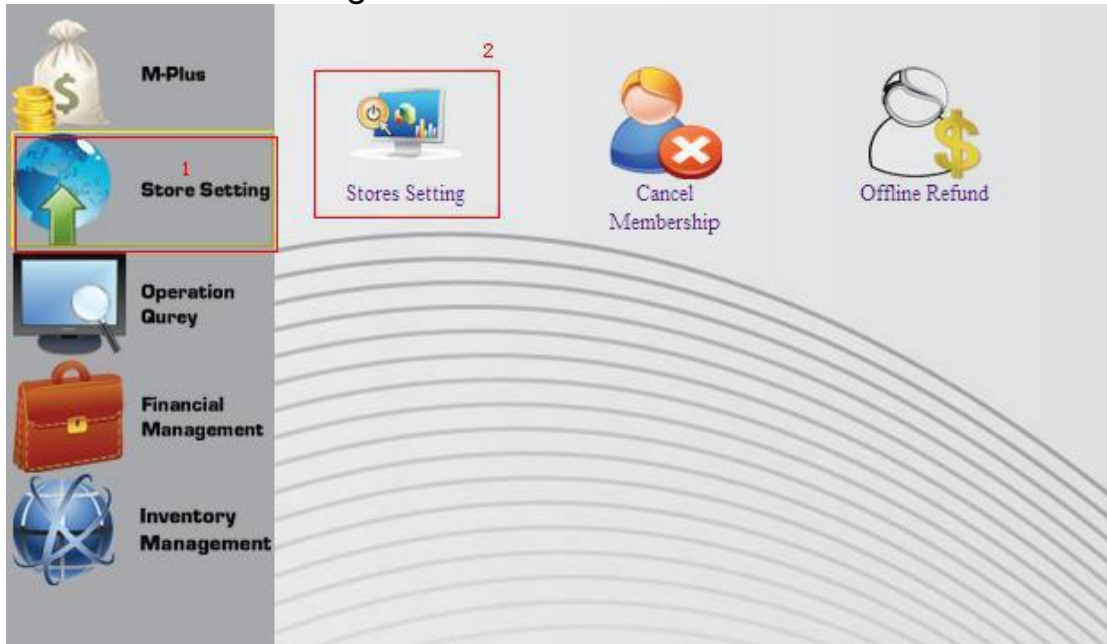

At the bottom of the window, there are three buttons: "Check Out All", "OK", and "CANCEL".

3. Now Login to e2Links Manage: <http://manage.e2links.com.my>

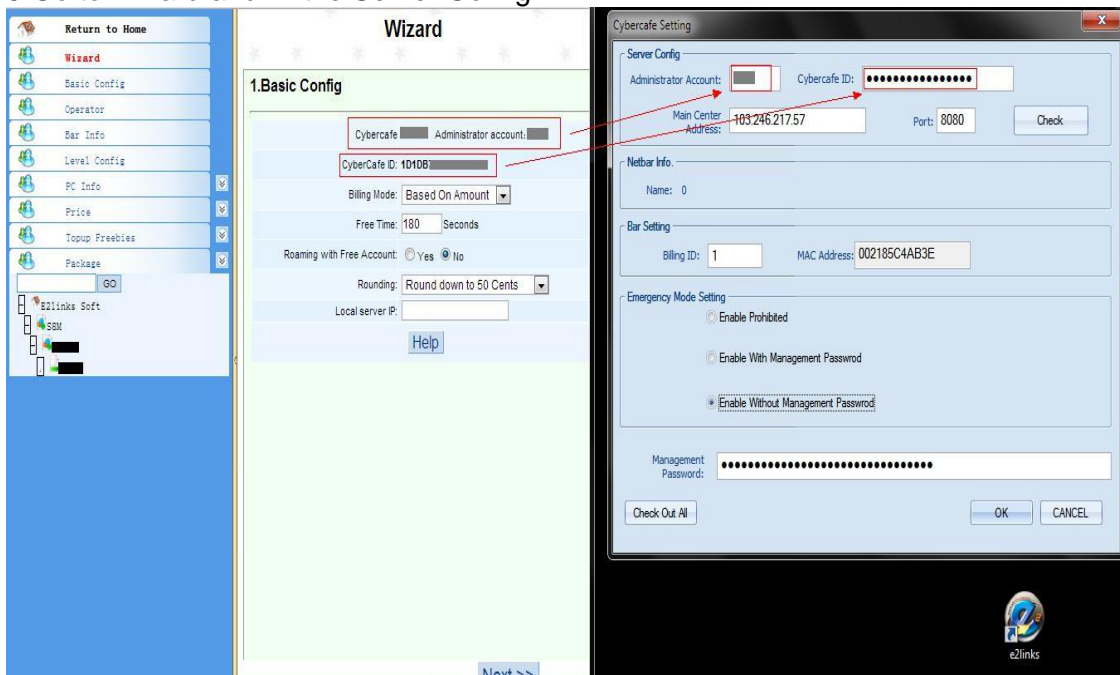

A screenshot of the "Login to e2Links Manage" web form. The form has a white background with a black border and contains the following elements:

- Header: "e2links manager LOGIN" with the e2links logo on the right.
- Fields: "Username:" with an empty text box, "Password:" with an empty text box, and "Verify Code:" with a text box containing the value "3554".
- Buttons: An orange "Login" button and a grey "Reset" button.

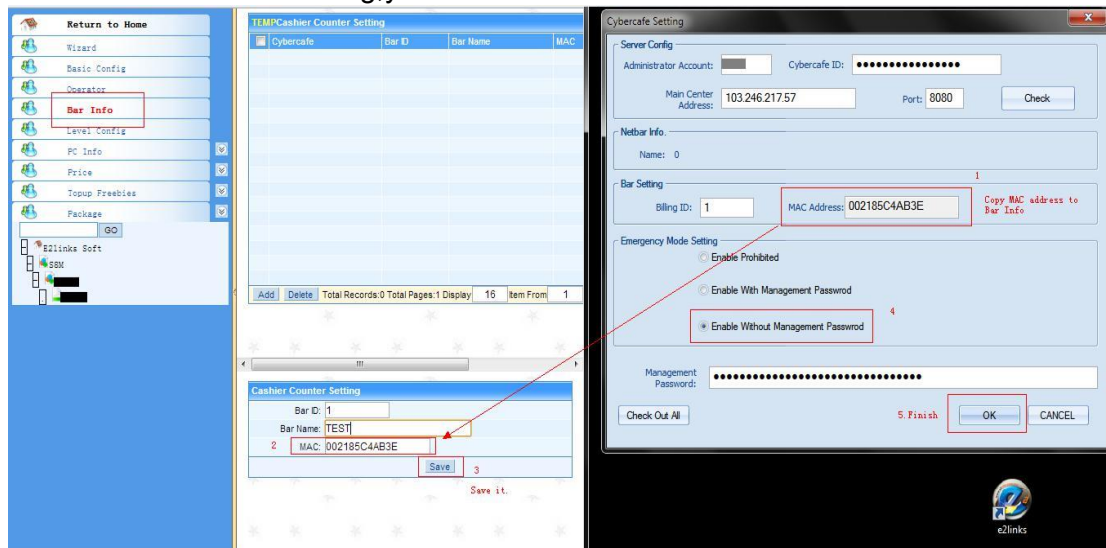

4. Go to "Store Settings"

5. Go to Wizard and fill the Server Config.

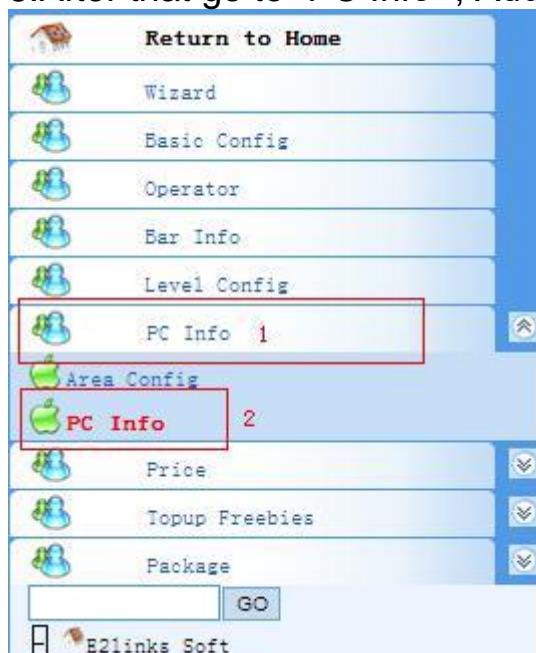

6. After filling the Server Config, you need to add cashier MAC address to "Bar Info"

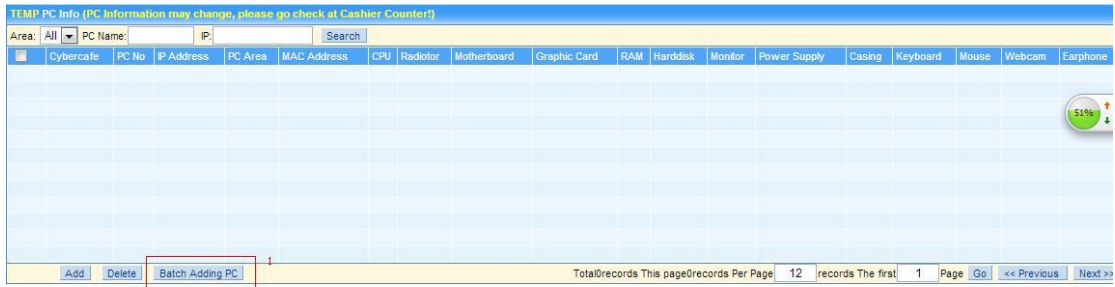

7. Click "OK" and Finish.

8. After that go to "PC Info", Add PC before install e2links Client.

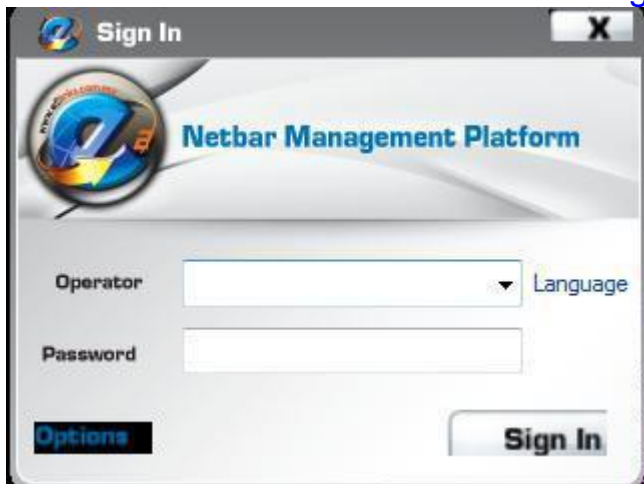

9.

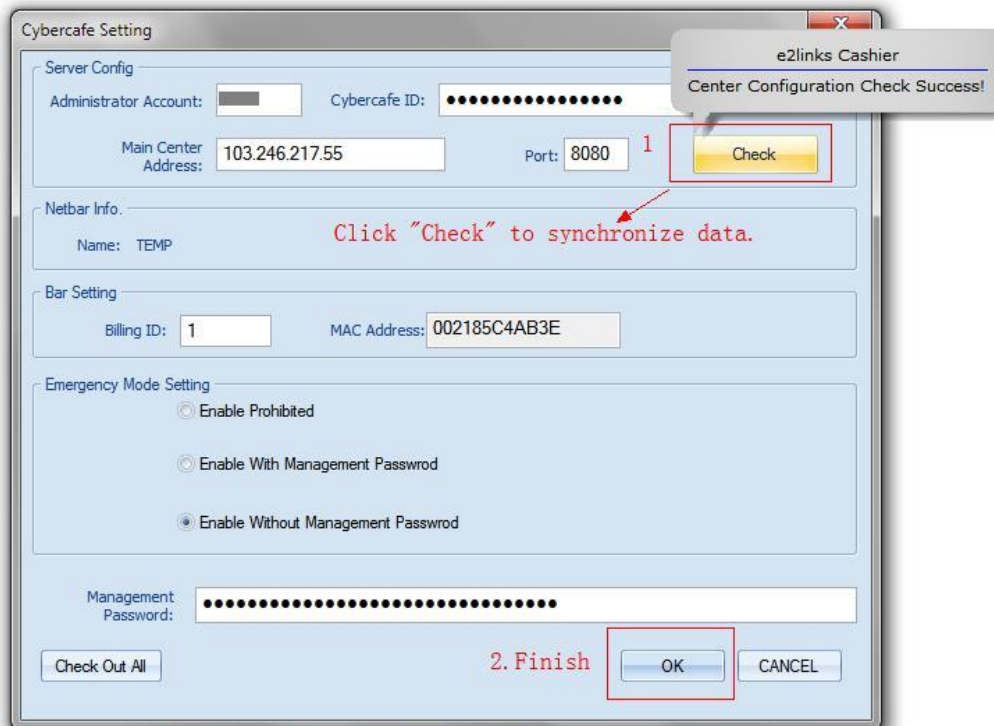

10. After added all the PC, you need Login to cashier and synchronize all the PC list to Cashier.

Note: Use administrator account to login.

11. Go to "Settings" > "Cybercafe" and click "Check" to synchronize.

12. After synchronize success, you can now install e2Links Client.

Go to client PC, open the installer that you download from e2Links website, Just simply click "Next" and input the cashier IP, and then click "Next" to install.

(FINISH!)
